Hi [@K, Venkatesh](#),

I hope you are doing well.

This is with reference to your resignation dated 8-Apr-2026 and your current notice period, with an initial last working day of 7-July-2026.

Following a detailed review with the **project and delivery leadership team**, it has been determined that your continued involvement is **essential** due to ongoing **production release activities** and critical **client delivery commitments**.

At this stage, there is a significant **risk to client deliverables** and overall project stability if the transition is completed without your direct support. Considering the criticality of the application and your role, the organization requires your presence to ensure:

- Successful execution of the **production release**
- Completion of **Knowledge Transfer (KT)** with the designated resources
- Closure of all **project deliverables and transition activities**

In view of the above, your notice period has been **extended**, and your revised **Last Working Day is September 14, 2026**. You are expected to continue supporting the project until the completion of these critical milestones.

We request your full cooperation in ensuring a smooth transition and uninterrupted delivery to the client.

Please note that this decision has been made based on **business and client delivery requirements**, and your adherence to this revised timeline is required.

Should you have any concerns, you may reach out to your reporting manager or HR for further discussion.

We appreciate your continued support and professionalism during this period.

Thanks & Regards,
Farhana Shaik
